### PROFILE SUMMARY

A highly skilled IT professional with over **9 years of expertise** in **Automation Testing, Data Analysis**, and **Team Leadership**. Specialized in **building automation frameworks, AI testing**, and delivering **quality web, mobile, and API automation solutions**. Proficient in managing cross-functional teams, improving software quality, and working within **Agile methodologies**. Adept at delivering results and driving innovation through automation, ensuring client satisfaction.

---

### CORE COMPETENCIES

- Automation Framework Development (Selenium, RestAssured, Playwright)
  - Continuous Integration/Continuous Deployment (CI/CD) with Jenkins, TeamCity
  - Agile & Scrum Methodologies
  - Leadership & Team Building
  - Quality Assurance Best Practices
  - Test Plan Development & Strategy Execution
  - Problem Solving & Analytical Thinking
  - Selenium WebDriver
  - Java, Python Programming
  - Continuous Integration/Continuous Deployment (CI/CD)
  - Agile Methodologies
  - Quality Assurance Best Practices
  - Test Plan/Strategy Development
  - Web/Mobile/API Automation Testing
  - Documentation and Reporting
  - Team Building & Leadership
- 

### CERTIFICATIONS

- 2020: ISTQB Certified Tester
-

## ACCOMPLISHMENTS

- 3 Technical Awards at Devstringx Technologies
- 

## EDUCATIONS

- **2017:** MCA from Sikkim Manipal University with 62.2%
  - **2014:** BCA from Magadh University with 75%
- 

## TECHNICAL SKILLS

- **Programming Languages:** Java and SQL
  - **Database:** MySQL, BigQuery
  - **Operating Systems:** Windows, Linux, Mac
  - **Automation Testing Tools:** Selenium WebDriver, RestAssured, Cucumber and Playwright
  - **IDEs:** Eclipse, IntelliJ, MySQL Workbench, VS Code
  - **CI/CD Tools:** Jenkins, TeamCity
  - **Data Visualization:** Tableau
  - **Source Code Management:** Git, Bitbucket
- 

## SOFT SKILLS

- Leadership & Team Building
  - Effective Communication
  - Problem-Solving & Analytical Thinking
  - Decision Making
  - Time Management
- 

## PERSONAL DETAILS

- **Date of Birth:** 13th August 1992

- **Current Address:** 1403, Tower B-14, Supertech Eco Village 1, Noida-201301, Uttar Pradesh

---

## **WORK EXPERIENCE**

**Nov'21 – Oct'24**

**HCL Technologies, Noida**

**Test Lead**

Key Results Areas:

- Leading development and implementation of automated test frameworks using Java, Selenium, and REST Assured.
- Designing and executing test plans and strategies for Web and API applications.
- Developing business solutions to improve revenue, quality, and performance.
- Working with complex datasets to build and deploy data solutions using ML techniques.
- Managing QA teams, analyzing performance, and ensuring project objectives are met.
- Leveraging AWS for test execution and environment management.

**Apr'21 – Nov'21**

**Global Logic, Noida**

**Associate QA Consultant**

Key Results Areas:

- Led QA Automation Testers, ensured efficient resource allocation and project execution.
- Developed QA and release management processes for mission-critical software solutions.

**Apr'17 – Apr'21**

**Devstringx Technologies, Noida**

**Sr. Test Engineer**

Key Results Areas:

- Monitored quality throughout the SDLC, managed teams of QA Engineers.
- Created test strategies and cases for transformation projects.
- Facilitated Agile methodologies and prepared technical documentation.

**Jan'16 – Mar'17**

**360logica Testing Services, Noida**

**Software Engineer**

Key Results Areas:

- Designed and implemented test cases, identified workflow issues, and proposed solutions.
- Managed software roll-ups, emergency bug fixes, and backup plans.

**Mar'15 – Dec'15**

**Ciya Technologies, Delhi**

**Software Engineer**Key Results Areas:

- Tested all aspects of the product/system, including performance and regression.
- Controlled the Software Test Life Cycle and communicated project status to management.
